## EDUCATION

B.S., Computer Science, Millersville University, 2009

## PROFESSIONAL EXPERIENCE

**Freelance Web Engineer**

3/1/13 – Present

Engagement in freelance web engineering with a strong focus on developing with the Magento framework. Created and maintained several high traffic Magento e-commerce sites, some with multiple store views. Developed custom modules that seamlessly integrate into Magento with a wide variety of functionality, including custom reporting, scheduled inventory and quantity updating from third party sources, and general site customizations. Set up several sites with extensive data import and export features. As a Magento certified developer, used expert knowledge of the Magento e-commerce platform to provide clients with solutions using best practices.

**Developer**, ParadoxLabs Inc., Lancaster, PA 1/10/10 – 9/1/14

Developed database driven websites from their design stage all the way to finished products. Performed extensive development with content management systems, including Magento, Drupal, Wordpress, Joomla, vBulletin, and Kentico. Created custom modules for Drupal, custom plugins for Wordpress and vBulletin, and custom extensions for Kentico. Developed in LAMP environment, as well as ASP.NET using C#. Designed relational databases from ground up. Developed extensively with the Magento e-commerce solution and worked both with a team and individually to build complex, high traffic corporate websites. Developed custom coded admin / member portals, as well as admin / member portal integrated with vBulletin. Performed setup and maintenance on Linux based servers. Developed extensively using Sublime Text, Dreamweaver, Photoshop, Visual Studio, phpMyAdmin, and SQL Server Studio.

**Software Developer Intern**, White Wolf Security, Lancaster, PA 9/09 – 12/09

Developed and updated both front and back end administration and management software with a strong database interaction, using both procedural and object-oriented programming practices. Developed using PHP, Javascript, jQuery, Ajax, HTML, CSS, and MySQL. Mainly worked independently with supplied specifications. Performed extensive error checking and testing to ensure quality of data.

**Help Desk Technician**, Millersville Univ. Help Desk, Millersville, PA 8/07 – 12/09

Performed software and hardware troubleshooting via telephone as well as in a hands-on environment. Performed minor network troubleshooting. Developed excellent communication skills via interaction with faculty, staff, and students.

## **AWARDS / CERTIFICATIONS**

- Magento Certified Developer - License w77dtt519c
- BSA Eagle Scout
